Teaching

It is a decisive change of course, which aims to overcome the abstract encyclopedic and provides the student with a solid preparation and conscious

# The SCHOOL as a LABORATORY for EDUCATIONAL RESEARCH

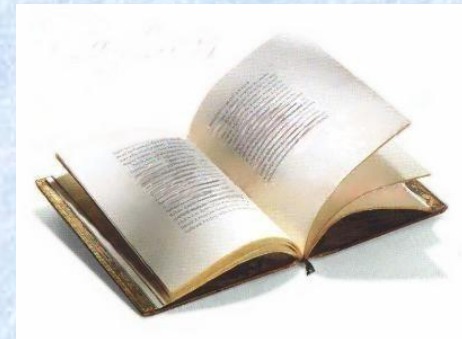

## THIS METHODOLOGY:

- ... can see at the center the students and the learning
- ... promotes interactive mode between teachers and students
- ... creates laboratories of experience and training strategies

**In this way you do not have an education therapist and abstract,  
but concrete and conscious...**

# The SCHOOL as a LABORATORY for EDUCATIONAL RESEARCH

..... so we come to the customization of training.

Laboratory as a training of the mind as an athlete  
and student learning

# The SCHOOL as a LABORATORY for EDUCATIONAL RESEARCH

..... Student are very active  
and interested in the lesson

They begin to think the school  
as an integral part of their lives!
